CHOOSE YOUR THESIS **[ONLY PICK ONE]:**

Despite an affluent upbringing, Socialites, also known as "Socs" have more difficulties than Greasers as shown by societal pressures, misunderstood backgrounds, and a need to suppress their feelings.

Greasers have more difficulties than Socialites due to a lack of societal acceptance, socioeconomic conditions, and violence and brutality on the part of faction rivalry.

Both Soc's and greasers have it "rough all over" due to societal pressures, the pressure and ignorance of youth, and family troubles.
